

Outside Service Technician

Service technician currently needed for Albuquerque and other New Mexico areas:

Our Southern California company has been providing and servicing medical life support systems for the healthcare industry since 1977. We are looking for a career minded individual to perform repairs, maintenance, installations, and outside service calls on medical air compressors, medical vacuum pumps and related equipment.

If you have lots of mechanical skills and have worked on generators, compressors or engines, this might be the position for you.

REQUIREMENTS:

Strong mechanical skills
Troubleshooting and repair skills for mechanical, pneumatic and electrical
Plumbing skills are beneficial
Good appearance and customer communication skills a must
Some heavy lifting is required
Own hand tools

Drug testing and background checks are mandatory to access secure hospital premises.
Our shop, vehicles and hospital work environments are non-smoking areas.

VALID CA DRIVERS LICENSE and CLEAN DMV are required. Do not apply without them.

JOB DESCRIPTION:

Daily travel to and from numerous facilities to perform services
Perform services on medical air compressors, medical vacuum pumps and related equipment
Diagnose, troubleshoot and repair medical equipment on customer site or in shop
Diagnose and troubleshoot analog or PLC control panels when necessary
Install or remove equipment if needed
Assist other employees in-house or on the job site if required
Safely operate a forklift to off-load and/or move equipment when necessary
Continual evaluation of our client base, jobs and work areas for maintenance and new work
Weekend on-call, overtime and occasional overnight stays may be required at times
General maintenance, organization and cleaning of vehicle (i.e. check air pressure, oil, water, washes etc.)
Keep mileage log and notify supervisor for scheduling of vehicle maintenance
Perform other duties as assigned

BENEFITS:

10 hour / 4 day work week – Schedule TBD - 6:00 am – 4:30 pm (after training period)
Sick, holiday, and vacation pay
Vested health benefits
401K with company contributions
Commissions
Service vehicle with gas card
Company pays for training, credentialing and certifications
Tool Purchase Program applies to this position

COME JOIN OUR TEAM:

This is a full time, permanent position with opportunity for advancement and growth.

Experience with the following other industries could cross-over to this position: Prior outside field service technician position - pump and/or motor rebuild, maintenance and repair - automotive engine rebuilds, maintenance and repair – off-road vehicle engine rebuilds, maintenance and repair - generator rebuilding, repairs and maintenance - experience with blower maintenance and repair – heavy machinery rebuilds, maintenance and repair
